PRODUCT RANGE

DURAPOST® SLEEK PRIVACY PANELS

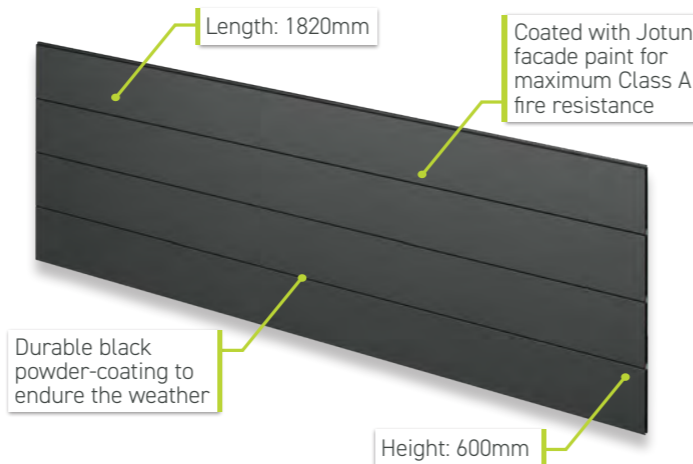

MAXIMUM PRIVACY WITH A CONTEMPORARY STYLE

DuraPost® Sleek Privacy panels are constructed from high quality 6063 grade aluminium. These pre-made fence panels offer maximum privacy while still offering the contemporary styled horizontal lines. This is achieved with a shadow groove between each board.

These fencing panels are used in conjunction with our DuraPost® Classic posts and accessories or can be installed between existing posts. Pre-made panels might be split into components to allow for non-standard fence heights.

WHAT TO EXPECT:

- ✓ Low-maintenance: wipe down to clean
- ✓ Fire tested: Class A for fire spread and smoke developed
- ✓ Acoustic noise reduction of up to 25 decibels

Pre-made panels can be split into components to allow for non-standard fence heights.

Product code: B8181833

DURAPOST® SLEEK SCREEN PANELS

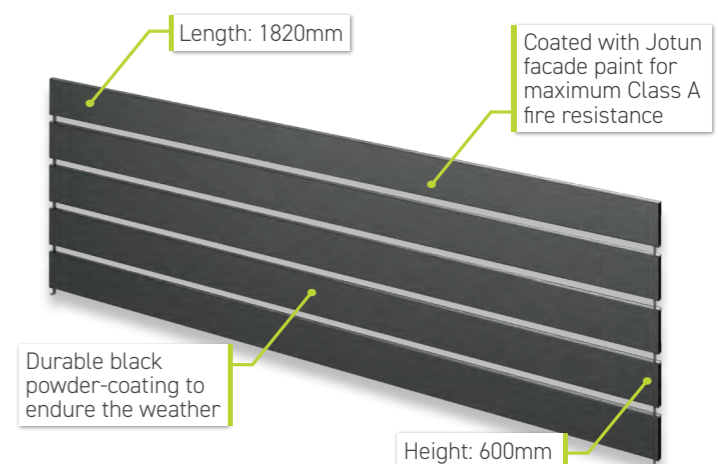

PERFECT FOR ELEGANT FENCES OR PARTITIONS

DuraPost® Sleek Screen panels are a contemporary slatted fence design that defines boundaries while enhancing natural light. Constructed with 16 x 100mm horizontal slats with a gap size of 20mm these fence panels are the height of modern and contemporary style.

These fencing panels are used in conjunction with our DuraPost® Classic posts and accessories or can be installed between existing post. Sunlight flows through the gaps between horizontal slats on this fence design, which keeps plants and lawns healthy and brightens dark spaces.

WHAT TO EXPECT:

- ✓ Low-maintenance: wipe down to clean
- ✓ Fire tested: Class A for fire spread and smoke developed

Pre-made panels can be split into components to allow for non-standard fence heights.

Product code: B8191833

DURAPOST® STEEL FENCE POST

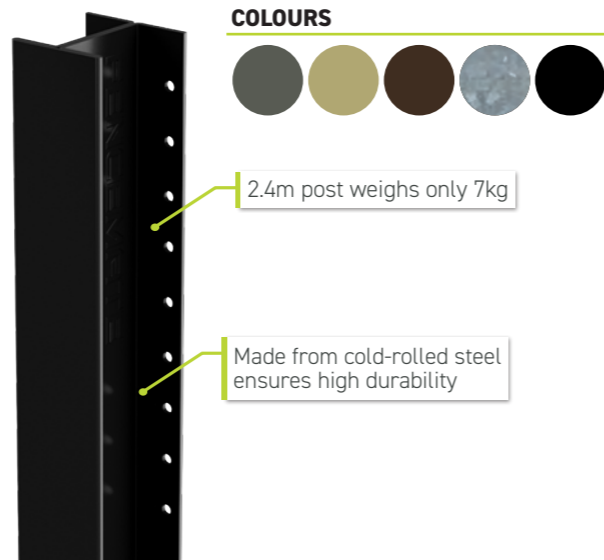

A DURABLE ALTERNATIVE TO WOOD OR CONCRETE

The DuraPost® Classic Steel fence post weighs 80% lighter than a concrete post and easier to install than your traditional wooden and concrete fence posts, even on the most challenging site.

Our steel fence posts are designed to be installed by one person; with its unique, 'H'-shaped design which allows virtually any type of fence panel or board to be attached, including our Sleek fencing, offering you a maintenance-free fencing solution, perfect for both residential and commercial projects.

WHAT TO EXPECT:

- ✓ Low-maintenance: wipe down to clean
- ✓ Doesn't rot or warp overtime
- ✓ Available post lengths: 1.8m, 2.4m, 2.7m & 3m

THE BENEFITS OF DURAPOST®

Peace of mind is guaranteed with DuraPost®. Our maintenance free fencing is light, secure and easy to install. Made in the UK, it is the sustainable solution that also offers flexibility in configuration and colour to suit your needs.

UNIVERSAL APPEAL

DuraPost® comes in four colour ways and is compatible with virtually any type of fence panels or board. You can even order colour-matched screws (available separately) for a seamless finish.

SAVES TIME

DuraPost® is a hassle-free solution. Each one is 80% lighter than concrete and can take up to half the time to fit compared to traditional fence posts. They also need no maintenance. Simply fit and forget about it.

IMPROVED SECURITY

DuraPost's pre drilled holes allow fence panels to be securely fixed. Unlike concrete posts that potentially allow panels to be lifted up and out.

QUALITY, GUARANTEED

DuraPost® is made in the UK from galvanised steel. It's designed to face the worst weather without warping or cracking and is guaranteed for up to 25 years*.

SUSTAINABILITY

DuraPost® posts are 100% recyclable at the end of its long life. It is lightweight, made in the UK using a low energy manufacturing process and is easy to transport, which cuts emissions significantly. DuraPost offers a sustainable fencing solution for everyone.

ENDLESSLY RECYCLABLE

DuraPost® Sleek is the perfect solution for modern and stylish fencing. Constructed from high quality 6063 grade aluminium and finished with Qualicoat Certified Jotun Sahara Black powder coating; providing a luxury alternative to timber fencing. Coming pre-built, the 600mm ready-made fence panel simply slides into place between posts using the aluminium end infills profiles on the inside of each post, secure the panel with provided fixings.

DID YOU KNOW?

Aluminium is one of the most recycled and recyclable materials on the market today? Almost 75% of all aluminium produced in the UK is still in use today. Aluminium can be recycled back into itself continuously, making it a truly sustainable option for fencing.
